## Description

- **DEVELOPED FOR PROFESSIONAL USE ONLY!**
- **The ORIGINAL product!**
- Guarantees fast and safe removal of stubborn grease deposits, hair, cellulose compounds and hygienic products.
- Due to its special heavy weight this professional pipe cleaner can reach deep-seated pluggings and dissolve these effectively.
- This pipe cleaner opens within just some minutes bad working or plugged drains. It removes event total seals of organic origin in pipes and drains.
- Does not affect materials of pipes and systems. It can be used on pipes from all materials.
- It's non-hazardous to biological sewage treatment plants.

## Application fields

- To remove stubborn pluggings in pipes and drains (in kitchen, bathroom, WC, etc.)
- For cleaning of excrement lifting stations

## Instructions for use

Remove waste water from the drain before use. **Neither use SANIT RohrGranate® together with other chemical cleaners, nor mix it with those.**

Fill **SANIT RohrGranate®** slowly into the drain (ca. 500 ml) and let it work for 5 – 10 minutes. At the end of reaction time rinse with **cold** water. In case of very stubborn pluggings, repeat the procedure. Take care for good ventilation of the room while working.

## Best before

- not relevant

You will find valid MSDS on our web page.

# Product Information

## Delivery forms

Quantity/PU	Content	Art.-No.
1 / 6	1000 ml bottle	3064

## Safety advice

**For professional use only.** Do not breathe vapours. Take special care when working with acrylic or varnished surfaces. In case of accidental use on sensitive materials, rinse immediately with plenty of water. To insure secure application we recommend to use hoppers with wide outlet to fill the chemical agent into the drain. When dosing, take care that the chemical agent does not overflow the drain. We can not give definitive information, if this product can affect artificial resin-varnished materials or materials with special colour pigments as there is a great variety of those on the market. So please check material compatibility on an unobtrusive spot first. Cover sensitive materials. Fill the agent into the drain precisely. Use a hopper to prevent splashes. Follow directions for use and safety advice necessarily. We disclaim liability in case of damage due to accidental application of this agent to sensitive materials.

## Legal notice

With the entry into force of EU Regulation 2019/1148 on February 1, 2021, the product SANIT RohrGranate® Prof. Pipe Cleaner is subject to this regulation. The product may only be supplied via specialist dealers to specialist tradesmen exclusively for commercial use and for the specified intended purpose. The corresponding intended use is filed with the BFR. Buyers must be able to provide a valid VAT ID number. The product may not be sold to end customers. In case of doubt, end-use declarations can and will be obtained by us.
