

Chain Spray

LOS 105

Chain Spray

Special chain lubricant of high viscosity (“Chain Honey”), based on mineral oil, polyolefines and corrosion protection additives, with excellent lubrication properties and high adhesive strength.

The compound is dissolved in low boiling spirit with propane/butane as propellant.

Application Areas

All types of drive chains and conveyor systems, plain and roller bearings at high temperatures, e.g. in tenters, dryers, double band presses, continuous and story furnaces

Application:

Shake before use. Spray onto the surface.

Technical Data of Lubricant (after evaporation of solvent and propellant)

| | |
|---------------------|---------------------------|
| Service Temperature | : -20 / +150 °C |
| Density (20°C) | : approx. 0,975 g/ml |
| Color | : brown-yellow |
| Flashpoint | : approx. 260 °C |
| Viscosity (40°C) | : 1600 mm ² /s |
