Description

Urine Attack is a spray product for the controlled removal of unpleasant odors in all industrial, commercial and private areas. It eliminates unpleasant odors quickly, easily and reliably thanks to its 2-step combination:

Step 1: Immediate action through highly efficient odor absorbers, which catch unpleasant odor molecules quickly and permanently binds.

Step 2: long-term action by microorganisms, which degrade the main components of malnourished compounds and thus eliminate the unpleasant odor.

Chemical characterisation

Water-based Cleaning agent with microorganisms.

Classification according to Regulation (EC) No.1272/2008 [CLP]

-

Transport information

ADR : -

Water hazard class (Classification according to AwSV)

Water hazard class : 1 (Slightly hazardous to water)

Labelling for contents according to regulation (EC) No. 648/2004

< 5 % non-ionic surfactants
perfumes

Safety equipment

Eye / Face protection:	suitable safety goggles acc. EN 166	In case of splash
Hand protection:	suitable gloves type EN 374	In case of possible skin contact
Respiratory protection:	Combination filtering device DIN EN 14387	Not necessary

Application

Urine Attack is ready to use. Simply spray onto the surface from a distance of 20 to 30 cm.

NOTE: check compatibility of water sensitive materials (such as silk) on an insignificant spot. Do not apply on leather.

Technical data

Appearance :	liquid		
Colour :	green		
Odour :	characteristic		
Boiling temperature :	ca. 100 °C	Solidifying temperature :	0° C
Flash point :	not relevant	Ignition temperature :	not relevant
Lower explosion limit :	not relevant	Upper explosion limit :	not relevant
Density (20 °C) :	ca. 1.0 g/cm ³	pH-value :	ca. 8,1
VOC (EG) :	0 Wt %	VOC (CH) :	< 3 Wt %

Storage

Keep container tightly closed. Keep/store only in original container. Protect against sub-zero temperatures. Optimized storage temperature is between 5 °C up to 35 °C. The product is storable in closed original packaging for at least 12 months. Starting date is the date of production.

Storage class (acc. TRGS 510): 12

Disposal advices

The waste codes are recommendations based on the schedule use of this product. Owing to the user's specific conditions for use and disposal, other waste codes may be allocated under certain circumstances.

Waste code acc. EWC/AVV for unused product
20 01 29* detergents containing dangerous substances.

Waste code acc. EWC/AVV for packaging
15 01 02 plastic packaging

Contaminated packaging must be emptied of all residues and, following appropriate cleaning, may be sent to a recycling plant. Uncleaned packaging must be disposed of in the same manner as the medium.
